## SUBJECT INDEX

Accommodation 247, 273
Acoustic startle reflex 307, 319
Aiming 307, 319
Attention 45, 167, 453, 489, 519
Auditory
  displays 161, 539
  stimulation 319
Automaticity 453
Automobile
  accidents 345
  centerline perception 369
  control 369
  headlighting 391
  instrument panel design 147
  pedal error 369
  perception of risk 377
  safety 715
Ballistic motion 335
Biomechanics
  hip flexion 679
  lateral pinch 689
  lifting 667
  shoulder 421
  spine 101, 229, 679
  strength 667, 689
  trunk muscle 101
  trunk strength 667
  trunk velocity 667
Chemical plant simulation 503
Chromatic aberration 273
Chromaticity 147
Circadian rhythms 721
Cognition 31, 215, 453, 489, 617
Component practice 453, 489
Computer
  documentation 215
  help screens 1
  information retrieval 579
Computer-aided design 593
Consistency 453
CRT
  displays 247, 259
  reading from 1
  versus hard-copy 247
  prolonged viewing 259, 273
Cumulative trauma 397, 413
Cutaneous stimulation 319
Data bases 579
Discomfort glare 391
Discrimination reaction time 571
Displays
  auditory 539
  auditory head-up displays 161
  bimodal 539
  chromatic 147, 259, 273
  cognitive content 31
  color 259
  complexity 31
  CRT 247, 259
  design 183
  emergent features approach 183
  highlighting of 17, 167
  integral/separable 551
  object 183
  stereophonic 161
  visual 17, 147, 183, 539
Documentation 215
Driving 147, 391, 715
Dynamic visual acuity 443
EMG 101
Errror correction/detection 345
Expository discourse processing 1
Fault detection 465, 503
Fitts' Law 421, 703
Flight training 87
Graphical interface 579
Hammer handle angle 397, 413
Hand tools 335, 397, 413
Hazard prevention 133
Head movement time 703
Head-up displays 161
Headlighting 391
Help screens 1
Heuristics 133

Highlighting 17, 167
Hip 229, 679
Human scheduling 635
Human-computer interaction 199
Human-machine-human interaction 593
Hypertext 1
Inert gas narcosis 571
Information retrieval 579
Instructional system design 453
Knowledge representation 617
Lifting 667
Logit analysis 123
Manual assembly 421
Manual materials handling 667
Manufacturing systems 635
Mental model 215, 617
Motion analysis 335
Motorcycle conspicuity/collisions 141
Movement
  cues 161
  time 703
Night work 721
Nitrous oxide 571
Object displays 183
Perceptual motor performance 307, 319
Posture 229, 421
Problem-solving 489, 635
Railroad spike maul 335
Reciprocal tapping task 703
Reflex modification 319
Safety
  automative 377, 715
  child drownings 123
  hazard prevention 133
  shiftwork 721
  traffic 715
  warning compliance 133
Schemata 617
Seating 229, 679
Semantic networks 31
Shiftwork 721
Simulators
  chemical plants 503
  design 87
  driving 147
Skill acquisition 453, 489
Spine 101, 229, 679
Stereophonic display 161
Stimulus intensity 307
Stimulus-response compatibility/optimization 291
Strength 667, 689
Stress 345, 519
Subjective discomfort 259, 391, 413
System
  design 617
  failure 377
Tabular interface 579
Target detection 63
Text reading 1
Tracking 307, 319
Traffic safety 715
Training
  automaticity 453
  component 453, 489
  consistency 453
  effectiveness 87, 453
  flight 87
  moving targets 443
  transfer of 87, 489, 503
Trunk velocity 667
Underwater visual adaptation 77
Unintended acceleration 345, 369
User interface 199
Visually evoked potentials 273
Verbal interface 579
Vigilance 45, 519
Vision
  accommodation 63, 247, 273
  adaptation 77
  displays 147, 183, 539
  search 17, 63, 167, 247, 259
Warning compliance 133
Word complexity 147
Working memory 465
Workplace design 421, 593
Wrist motion 397
